BSIT THIRD YEAR · UNIVERSITY OF MINDANAO

INVEST IN MY FUTURE IN TECHNOLOGY

Support a BSIT student on the journey from classroom learning to real-world experience. I am raising ₱30,000 to join the Technopreneurship Educational Tour to Manila, Philippines — 4 days and 3 nights of professional IT immersion.

About Me

Hi, I am Antonio Jr. S. Del Rosario, a third-year Bachelor of Science in Information Technology (BSIT) student at the University of Mindanao, Davao City, Davao Del Sur.

I am driven by a passion for software development, web technologies, digital innovation, and technology-driven solutions.

I believe that becoming a competent IT professional requires continuous learning, practical experience, ethical decision-making, and the willingness to adapt to an ever-changing industry. My goals go beyond technical knowledge — I aim to strengthen my problem-solving abilities, communication skills, professional discipline, and understanding of how technology creates value for people and businesses.

Through this educational tour, I hope to gain a clearer understanding of the professional environment I aspire to join and the responsibilities that come with becoming an IT practitioner.

BSIT - Third Year | University of Mindanao | Davao City

SKILLS

A versatile set of capabilities developed through academic projects, independent learning, and hands-on practice.

UI/UX DESIGN — 90% — Creating intuitive, user-friendly interfaces and digital experiences.

FULL-STACK DEVELOPMENT — 85% — Developing and maintaining web applications, from frontend interfaces to backend functionality.

QUALITY ASSURANCE — 80% — Testing applications, identifying issues, and ensuring functionality and reliability.

DEVOPS — 70% — Understanding development workflows, deployment processes, and maintenance.

PROJECT MANAGEMENT — 90% — Organizing project requirements, tasks, priorities, and deliverables.

TECHNICAL DOCUMENTATION — 95% — Creating clear and organized project documentation and technical records.

RESEARCH & CONSULTATION — 90% — Researching hardware specs, comparing devices, and identifying suitable options.

HARDWARE MAINTENANCE — 95% — Performing computer hardware cleaning and basic technical maintenance.

EXPERIENCE

Practical work, academic projects, and professional engagements that shape my capabilities.

Software Development & Programming

Developing software and web-based projects. Selected work is available on my GitHub profile at github.com/RyuuTonji, covering a range of academic and personal development initiatives.

Project Commission & Contract Work

Accepting project-based development opportunities based on agreed requirements, scope, deliverables, and timelines.

Computer Hardware Maintenance

Performing hardware cleaning and providing basic technical assistance to peers and community members.

Hardware Research & Recommendations

Helping evaluate device specifications, compare purchasing options, and identify potential limitations and precautions.

Academic & Personal Projects

Applying technical knowledge to project development, documentation, testing, research, and problem-solving across various disciplines.

WHY THIS TOUR?

Five compelling reasons why this 4-day Manila educational tour will define the next chapter of my career in technology.

TECHNOLOGY & INDUSTRY PRACTICES
Discovering how IT companies develop, maintain, and improve software, systems, and digital services in real professional environments.

PROFESSIONALISM & WORKPLACE CULTURE
Understanding workplace communication, teamwork, time management, accountability, and professional conduct in IT organizations.

ETHICS & RESPONSIBILITY
Learning why privacy, cybersecurity, data protection, and responsible technology use matter in practice.

INNOVATION & TECHNOPRENEURS
Exploring how businesses identify problems, develop technology-based solutions, and create value through innovation.

CAREER DEVELOPMENT & NETWORKING
Gaining insight into career opportunities, industry expectations, essential competencies, and the skills needed to transition from student to professional. Building meaningful connections with IT practitioners, entrepreneurs, and fellow tech students.

STRENGTHS

- PROBLEM-SOLVING & CRITICAL THINKING
- ADAPTABILITY & CONTINUOUS LEARNING
- ATTENTION TO DETAIL
- COLLABORATION & PROJECT COORDINATION
- PROFESSIONAL RESPONSIBILITY & ETHICAL PRACTICES

IN ACTION

Moments from events, workshops, and community engagements that have shaped my journey.

SUPPORT ME

Your contribution — no matter the size — is an investment in education, professional growth, and the future of technology in the Philippines.

Goal: ₱30,000

For the Technopreneurship Educational Tour

Manila, Philippines · 4 days & 3 nights

Every contribution helps bridge the gap between classroom learning and real-world professional experience. To support this journey, please reach out directly through the contact details below.
